Subject: RE: TAV Holdings, Inc. Meeting

Brooke, thanks for your email. We understand the recycling operation at TAV is involved and we are happy to have regular discussions with you regarding our process and steps which can be taken to address your concerns. Regarding specific items, and other notes we made regarding requests or inquiries made by Ms. Chavez, you and Mr. Champagne during our meeting last week, we have identified the following immediate steps for us to discuss with you this week as part of resolving your concerns.

1. TAV Actions this Week (December 13-17)

- TAV would cease inbound materials to be processed to the Atlanta facility effective immediately.*
- TAV would only process materials currently located at the Atlanta facility.*
- TAV would increase efforts to resolve housekeeping and material management issues.*
- TAV would fix the city storm drain at the corner of the property to collect rainwater coming from neighboring properties.*
- TAV has engaged Grady Moore of Balch and Bingham as counsel to assist. Mr. Moore will reach out to EPA counsel, Colleen Michuda, promptly.*
- TAV has engaged Claiborne Thornton of Industrial Environmental Consultants to coordinate with Carter Owens of the EPA to begin protocol and planning discussions regarding removal of material from the creek.*

2. Mass Balance

- TAV will prepare and report "mass balance" as requested to the EPA, for inbound and outbound materials at the Atlanta facility.*
- TAV will attempt to complete the report within two weeks.*

3. Weekly Communication Meeting

- TAV agrees that a weekly communication phone call will be a productive activity. Tuesdays from 3:00-3:30 PM as needed is acceptable for TAV. The first call will commence on December 14, 2021*
- The TAV list of attendees will be Bob Brewer, Alex Camozzi, Claiborne Thornton, and Grady Moore.*

Thank you, Alex

Thank you

Alex Camozzi

Subject: RE: TAV Holdings, Inc. Meeting

Alex and Bob,

I have not heard from you all regarding TAV's availability for a weekly standing meeting on Tuesday's at 3 pm for 30 minutes. This time is set aside for discussion of ongoing activities at the TAV Empire Facility, and other activity planning or coordination. Please let me know if you would like to continue with this brief meeting this afternoon, if there is another day or time you would prefer, if you prefer to begin these meetings next week. With the holidays approaching it will be unlikely that we are able to meet each week.

Thank you,
 Brooke

Subject: RE: TAV Holdings, Inc. Meeting

Alex, Bob and Claiborne,

Thank you for taking the time to speak with the EPA yesterday. We appreciate your time and attention to the EPA's concerns, which include TAV's ongoing operations, continued stockpile of materials on the land, and the known contamination resulting from TAV's operations. As we informed you during the call, the EPA is in the process of preparing an order that will require TAV to address the condition of the facility and the management of materials at the facility. This Order will likely be issued within the next month (either before or shortly after the holidays). In the interim and as a follow up to our discussion, please provide the following:

1. A description of the actions and timing of those actions that TAV intends to take prior to the EPA's Order issuance. Please provide this description prior to any actions being initiated.
2. A Mass Balance of all material incoming and outgoing to/from the facility since its inception in 2015. This should include an inventory of all inbound material, and outgoing product and waste, and should result in an estimate of the weight and/or volume of material stored onsite. If you are able to provide more specific information about the amount of material stored in each location (across the street, or in the pile beside the Keebler building, etc.), that would be helpful.
3. We would like to establish an ongoing communication with TAV. The EPA proposes a standing meeting each Tuesday at 3 pm, for 30 minutes. This meeting would be subject to time adjustments to suit all schedules and holidays. Please provide those TAV representatives that should be included in this meeting.

Note that the Superfund On-Scene Coordinators assigned to this Site are copied on this email.

Thank you in advance for your prompt response to this request. If you have questions or concerns in the interim, please do not hesitate to contact me.

Thank you,

Brooke York
